

# Inspired Design

You've never seen a collection like this before, this set is one of the most visually impressive designs in the world today. Each of the four beautiful bottles is accompanied by rope elegantly hand tied in true Shibari fashion. The combination of the unique Karuizawa bottles with the artistic knot pattern results in a masterpiece that deserves the utmost appreciation.

Japan is a *country steeped in tradition*, and colours hold strong meaning. Red, White, Black and Blue are mentioned in the earliest written history of Japan, and so are regarded as the four oldest colours in the Japanese language.

These four colours resonate significantly in the context of the Shibari art form and as such the Shibari Collection includes a bottle in each of Japan's earliest shades. Just 45 bottles of each color will be produced. Choose a favorite on your ballot entry, or select them all.
