

## Hibiki Master's Select

With the Japanese Whisky boom causing stocks of aged casks to be depleted, Suntory was forced to make significant changes to their product line. Fans were skeptical when the first premium NAS (Non Age-Statement) releases came out, but this concern was quickly thwarted once they took their first sip. Hibiki Master's Select carries forward the excellence of the Hibiki line, showcasing their ability to deliver a world-class product without decades of maturation.
